- 1pm-3pm: Same Live Virtual Class for Group 2
- 3pm-4pm: Office Hours

Google for Education
Certified Educator

LEVEL 1

Google for Education
Certified Educator

LEVEL 2

Asynchronous

All content is shared through short videos educators are expected to watch during the 2 hours of asynchronous time. Each video is on a few aspects of the tool.

Educators can then decide if they need to watch or can skip videos choosing only the ones they need to learn.

They will join a Google Classroom* full of resources & will receive challenges to test themselves on the content.

Synchronous

During the live, virtual classes, we discuss the logistics of the test (including registering & taking the test), the requirements of the Bootcamp program for educators to be successful, and cover the content needed for the most requested/least used Google tools. These sessions are educator-driven ensuring their questions are answered throughout.

*Educator Alexander (EA) must be whitelisted during Bootcamps for educators to join EA's Google Classroom.
