

# EDUCATOR ALEXANDER'S LIST OF PRESENTATIONS\*

---

## **KEYNOTE: How to Break Through Barriers to Achieve Your Goals**

You have a goal and a plan. Now what? What is stopping you from achieving that goal you have been wanting for so long? Come on a journey to discover what mental mat is holding you in place and how to break through that barrier with practical, inspirational steps that will lead you to pick up that mat and walk towards your goal! The time is now!

## **KEYNOTE: What's Next? Transforming Education Through Trauma**

Trauma transforms us permanently. It shapes our mindset, our actions and our decisions. When we, as a collective, experience trauma, it changes the status quo. In education, where the status quo is oftentimes created and disseminated, how will trauma transform our future? The time is now to decide what's next and what role you will play in shaping education's stagnation or transformation.

## **The Equity Cycle: Anti-Racist, Diverse and Inclusive Digital Education**

In education, we love hot new buzz words. And recently, equity has become very popular with not many understanding what it entails or how to unpack it. In this session, let's start an authentic conversation on how to unpack anti-racist, anti-bias, diverse, and inclusive education.

## **Using Primary Sources to Teach Culturally Relevant Lessons**

Let's discuss the power using primary sources in the classroom unleashes for students to make strong, culturally relevant connections to your content. You will leave empowered to use primary sources in your lessons to engage your students!

## **Increasing Your EdTech Footprint and Influence**

The world of EdTech moves so quickly that it can be hard to manage your influence and footprint. Come learn how to expand your influence by building your professional learning network, branding, increasing community connections, becoming company ambassadors and the wealth of tech tools that help pull it all together.

## **Go Brand Yourself!**

It's more important than ever that educators promote their best selves and the best of their schools. Branding is an excellent way to do this. In this seminar, you will learn the basic components of educational branding and why it is so important to brand. You will also learn the steps you will need to get started (and the pitfalls to avoid). This is a fun, energetic presentation by one of education's most rising stars that you will not want to miss!

## Classroom Management Basics (and Beyond)

Classroom management can look different in different classrooms. However, there are basics that every teacher should learn and implement to ensure their class runs smoothly and is, well, manageable. Come to this session to learn the tricks of the trade of classroom management (organization, rules/procedures, transitions, using technology in the classroom, teacher confidence, handling difficult behaviors, etc.).

## Time Management Tips for Teachers

We all want it, and we all ask for it...more time! But, even though we will never get it, there are tips & tricks that can help educators organize their lessons to accomplish more in less time and save time throughout the work day! You will want to begin using these immediately!

## Organizing Your Professional Projects

Many of us are planning more and more professional projects these days! Whether it be meetings, trainings, school programs, conferences, books, new classroom projects, etc., they can be very time consuming! Come learn quick, practical tips for organizing your projects where you can accomplish what is needed without losing your mind!

## Personalized Professional Development

In education, we know that students are not to be taught in a cookie-cutter, one-size-fits-all way. However, when we are teaching adults, we have a “do as I say and not as I do” mentality! Educators need options when it comes to professional development. Come learn why it is important to and how to personalize professional development in your school or district!

## Culture and Growth Mindset

Leaders, learning how to affect your school’s culture and climate is key to positively affecting teacher morale and student achievement. Come process how to improve your school’s culture and leave with a personalized plan of how to do so!

## Personality Leadership Styles

Leaders don’t have much time to self-reflect on their own practices and how they affect their schools/districts. In this fun, self-reflective session, leaders will learn about their personality types and analyze how it affects their actions and relationships with other educators.

## Manager vs. Leader

Leaders, are you a manager or a leader? Come take a deep dive into the difference between a manager and a leader, the positive and negative attributes of each, and evaluate where you fall on the spectrum.

## Building Healthy Student Relationships

Teachers, come have a real, practical discussion about how to build healthy student relationships that positively affirm students through the everyday activities you already do to raise student achievement.

## 6 Steps to Admin Time Management

Leaders, none of us have enough time in the day to get everything done! Is there a be-all-end-all fix? Of course not! But there are 6 practical steps you can add or change to help manage your time more efficiently and help your campus operate smoothly!

## 5 Steps to Admin Accountability

Leaders, it is not easy to have difficult conversations when things are done incorrectly. However, if 5 steps are put into place beforehand on your campus, it could make having those difficult conversations happen less often. Come learn 5 steps to add/change to make yourself and your campus more accountable.

## Successful School Leadership Through the ISLLC Standards
