

PROFESSIONAL DEVELOPMENT MENU

Digital Breakouts

Have you heard of an escape room? Well, help your students escape mundane lessons by creating free digital breakouts to use in your classroom. Come learn how to use Google Forms and Google Sites to create free digital breakout games that encourage collaboration, stimulate problem solving, nurture content knowledge development and have fun while doing it! Break out of the same routine with a free digital breakout.

Hitchhiker's Guide to Chrome

Are you hitching a ride using Chrome, but don't know exactly what Chrome has to offer you? Well, have I got news for you! Come learn the many perks of using Google Chrome as your main Internet browser and learn how to navigate Chrome once you begin using it.

Driver's Ed: Using Google Drive and Apps

Google Drive is an extensive resource that has many uses. Beginners, come to this session to learn how to begin to use Drive for storage, for collaboration, for sharing, and so much more! You didn't know Drive could do this much!

G Suite for Administrators

Do you love G Suite, but wonder how you can use it as an administrator? Come learn how to use Forms for data collection, Classroom for communication/meetings, Slides for more interactive presentations and Calendar to organize your school calendar and your schedule. Administrators will leave ready and excited to use G Suite effectively. Previous knowledge of G Suite Apps will be helpful when attending this session.

Actionable Feedback with Google Classroom and Docs

Come learn how to use Google Classroom, Google Docs, and some extensions to give your students actionable feedback! Previous knowledge of Google Classroom and Google Docs will be helpful when attending this session.

No More Paper Using Google Forms

Google Forms will transform your classroom and your school. Beginners, in this session you will learn how to create and edit a Google Form and get organized results. You will never ask anyone to fill out another paper form again!

Self-Grading and More: Taking Google Forms to the Next Level

You know how to use Google Forms...now what? Come learn how you can create self-grading quizzes, how to use branching, how to have a password on a form, and so much more! Previous knowledge of Google Forms will be helpful when attending this session.

Classroom...Google Classroom

Have you ever wanted a place online where your students could collaborate and submit? Also, a place where you had control to comment and grade their work all in one place? Well, Google Classroom is what you have been looking for! Beginners, come learn how to get started with Google Classroom and all the wonderful things you can do with it! Previous knowledge of Google Drive will be helpful when attending this session.

Flipping and Smashing with Google Classroom

Flip your classroom and smash some websites with Google Classroom. Come learn how to use different websites in conjunction with Google Classroom to truly create a paperless classroom! Previous knowledge of Google Classroom will be helpful when attending this session.

Beyond Google Classroom: Using Other Google Tools to Organize During Distance Learning

You are teaching online and are using already Google Classroom. Now What? Now you branch out to use other Google products to help you organize and create distance learning lessons! Try Google Keep, Google Calendar Appointment Slots, Google Meet, Google Extensions, Google Slides and more to create lessons and assessments that will keep your students engaged and ready for more!

Docs and HyperDocs

Ever wondered how to use Google Docs and what in the world a HyperDoc was? Well, this is the session for you! You will learn the unique features of a Google Doc and how to transform a regular doc into a central hub of learning for your students (HyperDoc). Beginners, you'll never look at a Google Doc the same way again!

Hyper...Hyper...HyperDocs!

Ever wondered how to create and use a HyperDoc? Well, this is the session for you! You will learn how to transform a regular Doc into a central hub of learning for your students (HyperDoc). Beginners, you'll never look at Google Docs the same way again!

Translation Tools Using Microsoft and Google

All educators want to communicate with our students and their families. This hands-on session will introduce you to Microsoft and Google tools to help translate languages for your and your students' use whether you are teaching in person or online. You'll play with these tools and discuss practical uses for them, so you leave with the tool and a game plan for using it!

Google Sites: How to Create Professional, Easy, Free Websites

In this session, you will learn about how to use Google Sites to create professional, free websites that can be used for a variety of reasons!

Slide into Fun with Google Slides

Have you been using the same presentations repeatedly and want to jazz it up? Well, look no further than Google Slides! Beginners, come learn how to get started using Google Slides to create fun, attention-grabbing presentations that everyone will love!

Get Interactive with Slides

Tired of using Google Slides for only presentations! Well, this session is for you! Come learn how to use Slides to create interactive handouts, games, templates, assessments and more! You will never look at Slides the same way again!

No Fear: Google Sheets Are Here

Spreadsheet. Just the name strikes fear in your heart! Well, fear no more! Beginners, come learn how to use Google Sheets to create spreadsheets in a step-by-step presentation that will have you saying, "Well, why didn't they just tell me that?!"

Hacks to Organize and Declutter Your Gmail

You use Gmail every day, but do you know all its' features that can help you be more productive? Beginners, come learn how to use Gmail and all the hidden gems it offers to help you organize your life! You will never look at email the same way again and you can CLEAR your email inbox now! This is the guided work session you never knew you needed!

Manage Your Life with Google Calendar

Have you ever wanted your entire schedule in your pocket? Google Calendar can help you organize your life by putting your entire schedule, calendar and to-do list at the palm of your hands! Beginners, come learn how to use Google Calendar to manage your life.

Mind-Blowing Google Extensions

This fast-paced session will leave your mind blown! Come learn about several extensions to use that will renew and revolutionize your Google use! Previous knowledge of Google Chrome will be helpful when attending this session.

Intro to Google Level 1 Certification

Do you want to take the first step on your journey to Google Certification? Come learn the logistics and what to study to pass the Google Certification Level 1 exam!

Intro to Google Level 2 Certification

Do you want to take the first step on your journey to Google Certification? Come learn the logistics and what to study to pass the Google Certification Level 2 exam!

Mind-Blowing Google Add-ons

You keep hearing about Google Add-ons, but don't quite know where to start, right? This fast-paced session will leave your mind blown! Come learn about several add-ons to use that will renew and revolutionize your G Suite use! Previous knowledge of G Suite Apps will be helpful when attending this session.

Screencasting and Creating a YouTube Channel

Come learn the different ways to create a screencast (a video of your desktop while you verbally explain a concept) and how to create your very own YouTube Channel to post them on. It is your decision whether you actually appear on the video or not!

Explore with Expeditions

Want to bring your students on field trips, but don't have the time or money! Well, Google Expeditions is here to help! Beginners, come learn how to take your students on a virtual field trip like they have never experienced before!

Fast Hacks Using Google for Productivity

We all have a ton of work and not that much time. This is the session for all educators to combine their knowledge of Google products to help organize and manage workflow. All educators can benefit from learning best practices (and tips and tricks) that can help when increasing productivity. This fast-paced session will have educators using these tools before they leave the session. Previous knowledge of Google Chrome and Drive will be helpful when attending this session.

Differentiation with Google

Do you love using technology in the classroom, but don't know how to differentiate it with your students? Come learn how to use G Suite to differentiate lessons with your students. From using Google Classroom to assign modified assignments to certain students to using Forms to reteach lessons in the middle of a quiz, you will learn how to help every student in your classroom while still using technology! Previous knowledge of G Suite Apps will be helpful when attending this session.

Going Google for ELA/SS

We all love using Google, but sometimes it is hard to visualize how to use it in content specific classes. Well, this session is for you! Learn how to use Google and other tech tools in the ELA and Social Studies classrooms!

Going Google for Math

We all love using Google, but sometimes it is hard to visualize how to use it in content specific classes. Well, this session is for you! Learn how to use Google and other tech tools in the Math classroom!

Google for Science

We all love using Google, but sometimes it is hard to visualize how to use it in content specific classes. Well, this session is for you! Learn how to use Google and other tech tools in the Science classroom!

PPL and Google Classroom

In education, we know that students are not to be taught in a cookie-cutter, one-size-fits-all way. However, when we are teaching adults, we have a “do as I say and not as I do” mentality! Educators need options when it comes to professional learning. Educational leaders, come learn why it is important to and how to personalize professional learning in your school or district and how Google Classroom can help you achieve this! Get tips for best practices and collaborate with other leaders to share what is best for your individual sites. Educational leaders will leave ready and excited to flip their professional learning programs for this upcoming school year. Previous knowledge of Google Classroom basics will be helpful before attending this session.
